

Azzam Al Kahil

Full Stack Developer

Tripoli, Lebanon | +961 76 338 952 | azzam.kahil.dev@gmail.com | GitHub | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Full-stack developer with hands-on experience building production-grade applications for real-world companies using React, Next.js, TypeScript, and Node.js. Skilled in designing scalable architectures, integrating RESTful APIs, and delivering polished user experiences. AWS Cloud Practitioner certified with experience in Agile team environments and a strong record of end-to-end feature ownership.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Next.js API Routes, Server Actions, RESTful API Design, JWT Authentication

Databases: PostgreSQL, MongoDB, Prisma

Cloud and DevOps: AWS (Cloud Practitioner Certified), Docker, Kubernetes

Tools and Workflow: Git, GitHub, Jira, Postman, VS Code

Core Expertise: Scalable Web Application Architecture, Performance Optimization, Responsive UI Development, Agile/Scrum Development

CERTIFICATIONS

AWS Certified Cloud Practitioner - Amazon Web Services *February 2026*

PROFESSIONAL EXPERIENCE

Frontend Developer Intern | **DOT Lebanon** | **Remote** *February 2026 - June 2026*

- Engineered the frontend of a B2B Global Trade and Logistics ERP system using React 19, Vite, and TypeScript, delivering a scalable domain-driven architecture deployed in live company operations.
- Designed a Role-Based Access Control (RBAC) system with protected routing boundaries governing dashboard access for 7+ distinct operational roles including Admins, Accountants, Warehouse Workers, and Order Managers.
- Built advanced state management and API integration using Redux Toolkit and RTK Query, implementing automated cache invalidation and normalized response handling across financial, inventory, and order modules.
- Developed end-to-end logistics modules including real-time container tracking, dynamic order management workflows, multi-region shipping pipeline configurations, and customer payment interfaces.
- Implemented multi-currency financial management features covering invoice history, expense ledgers, and money exchange dashboards, tightly interfaced with backend financial APIs.

Web Development Intern | **TechTalks** | **Remote** *September 2025 - November 2025*

- Led end-to-end development of CodeLeb, a gamified e-learning platform for programming, owning the full project lifecycle from architecture design through production deployment.
- Directed a development team using Agile methodologies, managing sprint planning, task delegation, and progress tracking via Jira to ensure on-time feature delivery.
- Architected the full-stack solution using Next.js, React, and Tailwind CSS, delivering a highly interactive and responsive UI optimized for engagement.
- Engineered backend infrastructure with Next.js API Routes and Server Actions, integrated with a PostgreSQL database for persistent data management.

EDUCATION

Bachelor of Science in Computer Science *January 2023 - September 2025*

Lebanese University (LU)
